

DELIVERING BETTER.

When you're responsible for transporting priceless cargo, you need a truck that's up to the job. To ensure the liquid gold it collects from Speight's Brewery gets to Dunedin's pubs and restaurants without delay, McCormick Carrying trusts in a reliable Canter 616.

To maintain their excellent reputation, brothers Kelvin and Stephen McCormick need reliable trucks, which prompted them to buy a new Fuso Canter 616 three months ago. The five-speed manual is fitted with a 3.1m x 2.1m curtainsider body.

"It's a great size for metro deliveries," says Kelvin. "We get a three-tonne plus payload on a truck that can be driven on a car licence. Our driver Jason, who has been with us for around 25 years, absolutely loves it!"

Kelvin says the comfortable and reliable Canter helps ease the load. Featuring a

suspended driver's seat with folding arm rest, Bluetooth audio for hands-free phone use and driver's airbag, whoever's driving can feel safe and confident behind the wheel.

"We've definitely been impressed with our purchase so far," says Kelvin. "And we're keeping our customers happy too."

So next time you're in Dunedin with a Speight's in hand, raise a toast to the McCormick Carrying crew and their trusty Canter 616!
