## BRAKE & WHEELBASE COMPLIANCE INFORMATION - FUSO FIGHTER EURO 6 with ESC

Fuso New Zealand confirms that the following FUSO Fighter Euro 6 models equipped with Electronic Stability Control (ESC) sold new in New Zealand will continue to meet the specified brake standard when the wheelbase is adjusted, provided the wheelbase adjustment is to a wheelbase specified as permissible for the model listed below.

**IMPORTANT:**

- Vehicles subject to wheelbase adjustments must have authorised FUSO dealer documentation confirming the vehicles ECU has been reprogrammed prior to issuing an LT400.
- The yaw sensor on the inner chassis rail must remain in the original position and orientation.
- These vehicles do not have factory fitted trailer equipment
- Green boxes are approved optional wheelbase settings.

Factory Model Code	Local Model Code	Brake Standard	Permissible Wheelbases mm (First axle to centre of drive axles)											Tyre size		Application
